

Why Verify?

Presenter: Ryan Stevens, Director

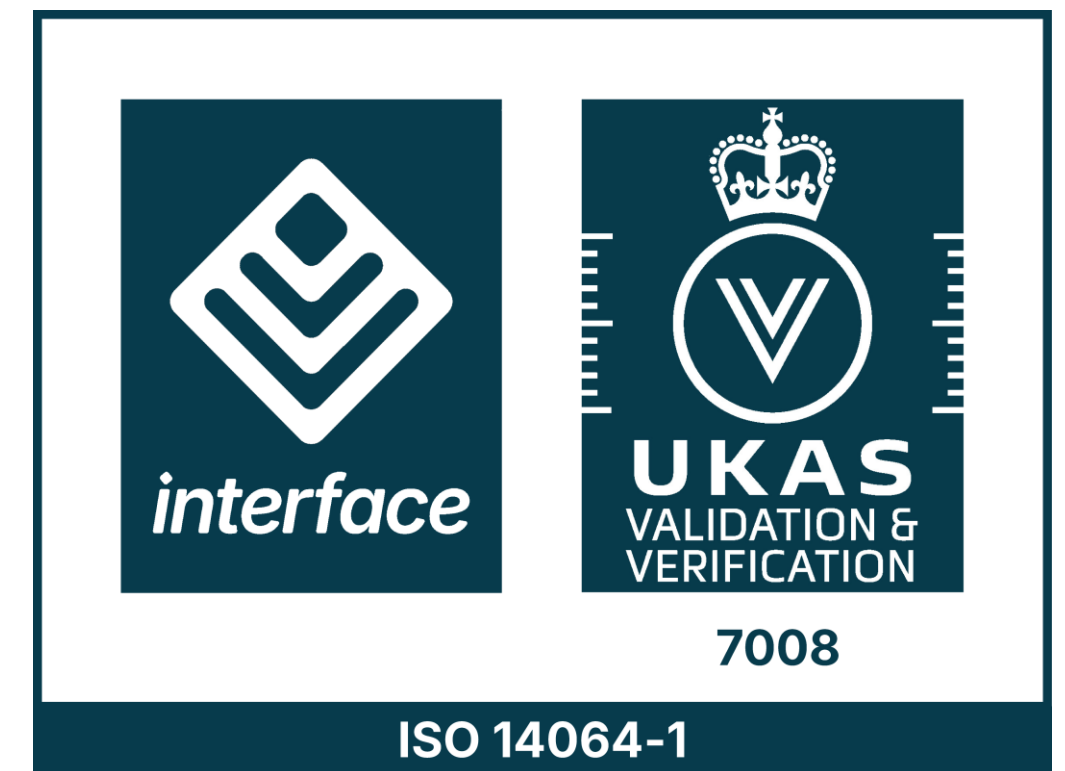

Contact: ryan@interface-nrm.co.uk | 01952 288325

What is Verification?

Verification is the process of evaluating and confirming that something is accurate, reliable, and meets specific standards or criteria. It involves an independent review or assessment to ensure that the information, data, or processes being verified are credible and trustworthy.

Why Verify?

Assurance | Compliance | Improvement

Thank You

Interface NRM, e-Innovation Centre, University of Wolverhampton, Priorslee, Telford, TF2 9FT
